#### **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Members of JonesTrading Institutional Services LLC

We have audited the accompanying statement of financial condition of JonesTrading Institutional Services LLC and Subsidiaries as of December 31, 2016 and the related notes to the financial statement. This financial statement is the responsibility of JonesTrading Institutional Services LLC and Subsidiaries' management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Company's internal control over financial reporting. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of JonesTrading Institutional Services LLC and Subsidiaries as of December 31, 2016 in accordance with accounting principles generally accepted in the United States of America.

(JTC) another wholly owned subsidiary of the Company is incorporated in British Columbia, Canada and has its primary office in Toronto, ON.

### 2. Summary of Significant Accounting Policies

### **Principles of Consolidation**

The consolidated financial statement includes the accounts of its wholly owned subsidiaries and all significant intercompany transactions and accounts have been eliminated in consolidation for the financial statement presentation.

### **Basis of Presentation and Use of Estimates**

The preparation of consolidated financial statement in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect certain amounts reported in the consolidated financial statement and accompanying notes. Significant estimates include the fair value of stock-based compensation and allowance for receivables.

Management believes that the estimates utilized in preparing its consolidated financial statement are reasonable. Actual results could differ from these estimates.

### **Cash and Cash Equivalents**

For purposes of the consolidated financial statement, cash and cash equivalents consist primarily of cash on deposit, money market accounts, and investment-grade commercial paper, all of which have original maturities of three months or less. Interest income on cash equivalents

is recognized on an accrual basis. Cash equivalents are stated at cost plus accrued interest, which approximates fair value.

### **Soft Dollar Programs**

The Company permits institutional customers to allocate a portion of their gross commissions to pay for research products and other services provided by third parties. The amounts allocated for those purposes are commonly referred to as soft-dollar arrangements. The Company accounts for soft dollar expenses on an accrual basis. An accrued soft-dollar research payable of \$2,898,761 is classified as trade accounts payable in the consolidated statement of financial condition. The funds do not represent "customer funds" of the relevant customers or "funds carried for the account of" the relevant customers as defined in Rule 15c3-3 of the Securities Exchange Act.

#### **Due from Brokers**

Due from brokers consists of amounts due to the Company from clearing agents. Management evaluates collectability of receivables periodically and adjusts the balance to the amount it expects to collect. Management believes its risk of loss on currently recorded receivables is minimal and accordingly no allowance for doubtful accounts has been provided.

### **Commissions and Other Receivables**

Commissions and other receivables consist primarily of amounts due to the Company in relation to options transactions that are billed at month-end. Management evaluates collectability of receivables periodically and adjusts the balance to the amount it expects to collect. Management believes its risk of loss on currently recorded receivables is minimal and accordingly no significant allowance for doubtful accounts has been provided.

### **Income Taxes**

The Company is a flow-through entity for federal tax and state purposes and provides its unit holders with federal and state K-1 statements annually. Accordingly, no provision has been made for U.S. federal income taxes in the accompanying consolidated financial statement. The Company files state returns in various states. Some state and local jurisdictions apply an income tax to unincorporated entities.

December 31, 2016

### 2. Summary of Significant Accounting Policies (continued)

The Company's subsidiary JTC is incorporated as a private corporation and pays Canadian federal and provincial taxes. The company's subsidiary JTIL is a disregarded entity for U.S. income tax purposes. It is a corporation for U.K. income tax purposes and files a U.K. corporate tax return. The company has a full valuation allowance on any deferred tax asset that would be recorded.

The Company recognizes the tax benefit of uncertain tax positions only when the position is "more likely than not" to be sustained assuming examination by a tax authority. Based on its evaluation, the Company has concluded that there are no significant uncertain tax positions requiring recognition in its financial statement, nor has the Company been assessed interest or penalties by any major tax jurisdictions. The Company's evaluation was performed for all tax years ending December 31, 2016. Tax years 2013 through 2015 are subject to examination by state taxing authorities.

### **Foreign Currency**

The financial position and results of operations of the Company's foreign wholly owned Subsidiary, JonesTrading Canada Inc., are measured using the Canadian Dollar as the local currency. The financial position and results of operations of JonesTrading International Limited, are measured using the Pound Sterling as the local currency. Assets and liabilities have been translated at the rates of exchange on the balance sheet dates. Revenues and expenses for the years ended December 31, 2016 have been translated into U.S. dollars at average exchange rates prevailing during the years. The resulting foreign currency translation adjustments are recorded as other comprehensive income in the accompanying consolidated financial statement.

As of December 31, 2016, the exchange rate between U.S. Dollars and Canadian Dollars was U.S. \$1.00 = CAD 1.3446, and the weighted average exchange rate for the year then ended was U.S. \$1.00 = CAD 1.3638. As of December 31, 2016, the exchange rate between U.S. Dollars and Pound Sterling was U.S. \$1.00 = GBP 0.8106, and the weighted average exchange rate for the year then ended was U.S. \$1.00 = GBP 0.7387.

### 3. Fair Value

The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The standard establishes the following hierarchy used in fair value measurements and expands the required disclosures of assets and liabilities measured at fair value:

- Level 1 -Inputs use quoted unadjusted prices in active markets for identical assets or liabilities that the Company has the ability to access.
- Level 2 -Fair value measurements use other inputs that are observable, either directly or indirectly. These inputs include quoted prices for similar assets and liabilities in active markets as well as other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.
- Level 3 -Inputs that are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

The inputs or methodology used for valuing assets and liabilities are not necessarily an indication of the risk associated with investing in those assets and liabilities.

Certain financial instruments are carried at cost on the Statement of Financial Condition, which approximates fair value due to their short-term, highly liquid nature. These instruments are classified as Level 1.

Assets at Fair Value at December 31, 2016					
	Level 1	Level 2	Level 3	Total	
Money Market Mutual Funds	\$11,597,827	\$ -	\$	\$11,597,827

As of December 31, 2016 Money Market Mutual Funds of \$11,597,827 and a Certificate of Deposit of \$2,999,696 were included in Cash Equivalents in the consolidated statement of financial condition. ### 12. Commitments and Contingencies

### Litigation

From time to time, the Company may be involved in ordinary routine litigation incidental to its business. Currently, there are no litigations against the Company.

Certain conditions may exist as of the date the consolidated financial statement is issued, which may result in a loss to the Company, but which will only be resolved when one or more future events occur or fail to occur. The Company assesses such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company, or un-asserted claims that may result in such proceedings, the Company evaluates the perceived merits of any legal proceedings or un-asserted claims, as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's consolidated financial statement. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability and an estimate of the range of possible losses, if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed, unless they involve guarantees, in which case the guarantees would be disclosed. There can be no assurance that such matters will not materially and adversely affect the Company's business and financial position.

#### Indemnifications

The Company functions as an introducing broker that places and executes customer orders. The orders are then settled by an unrelated clearing organization that maintains custody of customers' securities. Through indemnification provisions in agreements with clearing organizations, customer activities may expose the Company to off-balance sheet credit risk. Financial instruments may have to be purchased or sold at prevailing market prices in the event a customer fails to settle a trade on its original terms or in the event cash and securities in customer margin accounts are not sufficient to fully cover customer obligations. The Company seeks to control the risks associated with customer activities through customer screening and selection procedures as well as through requirements on customers to maintain margin collateral in compliance with various regulations and clearing organization policies.

#### **13. Subsequent Events**
